WFSborder

The WFSborder business model can be split into three distinct divisions:

Wholesale Distribution

Previously carried out by Border Distribution 2000 Ltd, this is the core business and covers the wholesale distribution of Gardening, Paint and Preservatives, Household and General Hardware and DIY products. Turnover in 2006 was over £3.4 million spread over 500 customers.

Amenity and Grower

This side of the business supplies Seed, Fertiliser, Chemicals, Growing Media, ... etc... to the Amenity and Professional Grower market and hold accounts with all major suppliers to this sector. Turnover in 2006 was over £600,000.

Group Buying

This Division performs the function previously undertaken by Welsh Farm Suppliers who's turnover reached over £30 million at its peak. Although performing an essential service to the membership, in future this sector will not involve itself in the administration/invoicing cycle so will not contribute to the overall turnover of the business.
